

HTTPS: Question 4 A

- HTTPS operates over three connection levels – HTTP, TLS, and TCP
- Have a look at the packet capture in *question4.pcap* and describe, which packets correspond to which of the three levels.
 - Identify the TCP handshake, TLS handshake, HTTP data (specify packet numbers)
 - Recommendation: use Wireshark

HTTPS: Question 4 B

- Is mutual authentication in place in the TLS handshake from question 4 A?
