

2.1 Privacy Policies

2.1.1 Free Social-Network, Communication, or News App that drives revenue from advertisements (Instagram) [Ins]

Instagram is a social media platform, that is part of the Facebook group, in which a user can upload photos, follow other people or groups and chat with those as well. It gathers information about the user, i.e. information about the interests, actions and connections to select and personalize the advertisements, offers, and other sponsored content. Additionally location-based information, such as the current location, where the user lives, the places the user likes to visit, and the businesses and people in there area, are gathered to improve the advertisements. Because Instagram is part of the Facebook group it can combine information from both platforms to provide a more consistent experience.

2.1.2 Free Social-Network, Communication, or News App that does not rely on advertisements (Signal Messenger) [Sig]

Signal itself does not gather much information about the user. The chat messages themselves are end-to-end encrypted such that Signal cannot access the content of messages or calls. Also information that were collected, like name, phone number are only shared with third parties in case of governmental or law enforcement request.

2.2 App-Specific Privacy Information

2.2.1 20 Minuten App [20M]

App Privacy [See Details](#)

The developer, 20 Minuten, indicated that the app's privacy practices may include handling of data as described below. For more information, see the [developer's privacy policy](#).

Data Used to Track You	Data Linked to You	Data Not Linked to You
<p>The following data may be used to track you across apps and websites owned by other companies:</p> <ul style="list-style-type: none">LocationIdentifiersUsage Data	<p>The following data may be collected and linked to your identity:</p> <ul style="list-style-type: none">Contact InfoUser ContentIdentifiers	<p>The following data may be collected but it is not linked to your identity:</p> <ul style="list-style-type: none">LocationIdentifiersUsage DataDiagnostics

Privacy practices may vary, for example, based on the features you use or your age. [Learn More](#)

2.2.2 Blick App [Bli]

App Privacy [See Details](#)

The developer, Blick, indicated that the app's privacy practices may include handling of data as described below. For more information, see the [developer's privacy policy](#).

Data Used to Track You	Data Linked to You	Data Not Linked to You
<p>The following data may be used to track you across apps and websites owned by other companies:</p> <ul style="list-style-type: none">LocationIdentifiersUsage Data	<p>The following data may be collected and linked to your identity:</p> <ul style="list-style-type: none">LocationContact InfoUser ContentIdentifiers	<p>The following data may be collected but it is not linked to your identity:</p> <ul style="list-style-type: none">IdentifiersUsage DataDiagnostics

Privacy practices may vary, for example, based on the features you use or your age. [Learn More](#)

2.2.3 Frankfurter Allgemeine Zeitung App [FAZ]

App Privacy [See Details](#)

The developer, Frankfurter Allgemeine Zeitung GmbH, indicated that the app's privacy practices may include handling of data as described below. For more information, see the [developer's privacy policy](#).

Data Used to Track You

The following data may be used to track you across apps and websites owned by other companies:

- Contact Info
- Identifiers
- Usage Data
- Other Data

Data Linked to You

The following data may be collected and linked to your identity:

- Contact Info
- Identifiers
- Usage Data
- Other Data

Data Not Linked to You

The following data may be collected but it is not linked to your identity:

- Diagnostics

Privacy practices may vary, for example, based on the features you use or your age. [Learn More](#)

2.2.4 Neue Zürcher Zeitung App [NZZ]

App Privacy [See Details](#)

The developer, Neue Zürcher Zeitung AG, indicated that the app's privacy practices may include handling of data as described below. For more information, see the [developer's privacy policy](#).

Data Used to Track You

The following data may be used to track you across apps and websites owned by other companies:

- Location
- Identifiers
- Usage Data
- Diagnostics

Data Linked to You

The following data may be collected and linked to your identity:

- Location
- Contact Info
- Identifiers
- Usage Data

Data Not Linked to You

The following data may be collected but it is not linked to your identity:

- Contact Info
- Identifiers
- Usage Data
- Diagnostics

Privacy practices may vary, for example, based on the features you use or your age. [Learn More](#)

2.2.5 Conclusion

All of the news paper applications are using location data in order to be able to track the user (Even the FAZ which is listing this under "Other Data"). Additionally all of the news apps collect identifiers and usage data. Only the location data which is gather by 20 Minuten cannot be linked to the user, for all other apps this is not the case. For all apps in some regards they will collect data about contact info or user identifiers in order to be link to the user's identity. Also the 20 Minuten and Blick App do collect User Content.

All of the news app are pretty similar in regards to which data are collected but some try to anonymize the data whereas the FAZ just take the data and directly link them to the user.
