<sup>3</sup>marcel.zauder@students.unibe.ch, University of Bern

## **Abstract**

This package, `unifrsr`, allows the easy creation of seminar reports using standard  $\text{\LaTeX}$ . It should be the last package loaded, to ensure that nothing overrides the page layout.

Note that utility commands are available:

- `\seminartitle` which specifies, optionally, the title of the seminar the report is being written for
- `\supervisor` which specifies the name of the professor supervisor of the project
- `\assistant` which specifies, optionally, the name of the assistants of the seminar, separated by the command `\and`

**Keywords:** Seminar report, Human-IST Research Institute

# Contents

1.1	Subsection of introduction . . . . .	2

# Chapter 1

## Introduction

This is an example of a section. As you see, it is just a standard  $\text{\LaTeX}$  section. Here is a footnote<sup>1</sup>.

### 1.1 Subsection of introduction

It's all standard  $\text{\LaTeX}$ , as you can see. This is a very nice paper: [?] [?] [?] [?] [?] [?]  
[?] [?] [?] [?] [?]
