WISDOM OF THE CROWDS
CAN CROWD-SOURCING COEXIST WITH TODAY'S DATA SECURITY REGULATIONS?

Abstract

This package, unifrsr, allows the easy creation of seminar reports using standard LaTeX. It should be the last package loaded, to ensure that nothing overrides the page layout.

Note that utility commands are available:

- `\seminartitle` which specifies, optionally, the title of the seminar the report is being written for

- `\supervisor` which specifies the name of the professor supervisor of the project

- `\assistant` which specifies, optionally, the name of the assistants of the seminar, separated by the command `\and`

Keywords: Seminar report, Human-IST Research Institute

Contents

Chapter 1

Introduction

This is an example of a section. As you see, it is just a standard LaTeX section. Here is a footnote[1].

1.1 Background and Motivation

It's all standard LaTeX, as you can see. This is a very nice paper:
